

MOTORIZED VENETIAN BLINDS Venetian Blinds by Warema

MOTORIZED EXTERIOR SOLAR CONTROL

The Hotel At Oberlin, Oberlin OH, Architect: Solomon Cordwell Buenz, Chicago, IL
Photographer: Hal Stata, Stata Productions, Cleveland, OH

Renton Highlands Library, Renton, WA
Architect: Hacker, Portland, OR
Photographer: Lara Swimmer

■ The Venetian Blinds by Warema shading system creates just the right amount of daylight by preventing glare thanks to the system's ability to retract, extend, or tilt the slats. Exterior and dual façade applications provide effective solar control and thermal comfort with optimal daylighting. They can be used for new buildings or renovations, and are appropriate for commercial, institutional, retail, and residential applications.
