

Why Draper?

BUILDING EXPERIENCES

Draper® architectural shading solutions create comfortable and sustainable spaces and help you achieve your vision for a positive experience in the built environment – both indoors and out.

BUILDING INNOVATION

Draper shading solutions involve a broad spectrum of options for design, accessories, and functionality, including a choice of hundreds of fabrics, hardware options, custom colors, and dimensions.

BUILDING QUALITY

Cheap substitutes can lead to durability issues. We utilize high quality components to create solutions that meet or exceed your specifications. We hand check every component and test every shade prior to packing. Draper provides quality solutions that are built to last, protected by an incomparable warranty.

BUILDING TRUST

Manufacturing shades in the United States, coupled with weekly fabric shipments from American weavers Phifer® and Mermet® provides more control over quality and scheduling. Short lead times and high on-time delivery percentages keep your project on track.

BUILDING COMMUNITY

Draper is a 5th generation family-owned business, committed to manufacturing in the USA. As a family-owned business, we can develop closer relationships with customers. Experience over 120 years of innovative solutions, and unmatched service.

Draper shading solutions can be found in some of the highest-profile projects in North America.

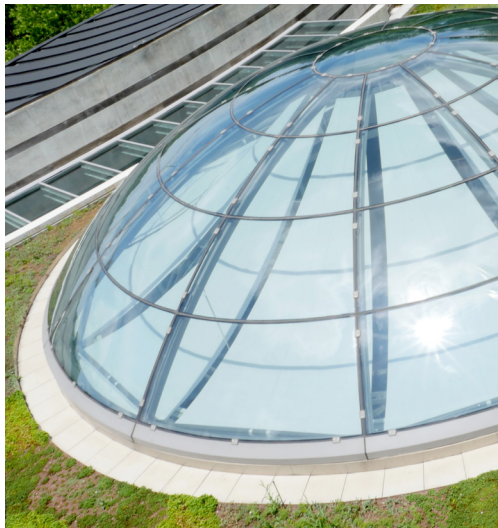

See project profiles and case studies detailing how we've helped architects build their vision.

Why Draper At Home?

BUILDING PERFORMANCE

You probably know Draper® as a commercial shade manufacturer. Draper At Home combines our commercial capabilities with the choice and quality required for residential use. We have specially designed shade solutions to complement any style. Create comfort, increase UV protection, and maintain privacy in your home and outdoor living spaces with Draper At Home shades.

BUILDING LUXURY

The right fabric weave, openness, and color play an integral role in home design. Choose from exceptional shade fabrics, many woven in the USA by Phifer® and Mermet®. Or, choose a unique color for your window shades. We will create a perfect color match for interior or exterior shades – with quick turnaround times.

BUILDING STYLE

The sleek FlexStyle® open-roll motorized window shade system is designed especially for residential use. Meet the exacting standards of the most fashion-conscious homeowner with this award-winning, stylish hardware, available in 9 finishes.

BUILDING TO LAST

Each Draper At Home shade is custom manufactured and hand inspected then shipped directly from our world-class manufacturing facility in the heartland of the USA, and is backed by the industry's best warranty.

Private residence in Sandpoint, ID. FlexStyle® Battery Motorized Shades with Oslo fabric in Kora. Photo Miller Photography.

Draper At Home shading solutions are designed to meet the standards of the most exacting homeowner.
